About Me

I work at [IntelliWare Systems](#) supporting work in the US Intelligence Community (USIC). Before that, I worked at McDonald Bradley and Domain Technologies doing similar work. Before that, I worked as an engineer for [Military Sealift Command](#). Before that I was an engineer at [AKG of America](#). And before that I worked at [Fairbanks Morse](#) and before that I sailed for US Steel on the Great Lakes. And before that, I studied marine engineering, math and software engineering, obtaining undergraduate degrees from the [US Merchant Marine Academy](#), and a Masters in Information Systems from [GMU](#). I enjoy working with and studying big data, data analysis, visualization, and also enjoy learning about social networks..

Interests

- big data
- data analysis
- social networks
- visualization
